

## Vitrine

[NL]

*Een stukje uniek vakmanschap met een knipoog naar vroeger. Dat is waar de ambachtelijk vervaardigde Vitrine-collectie voor staat. Dankzij de transparante constructie stralen de vitrines een zekere lichtheid uit. De kleine ongelijkheden en kleurschakeringen zorgen voor authenticiteit. Bij de wandarmaturen kan U de lamp makkelijk vervangen door de zijdelingse pinnen eruit te trekken. Ook de vitrineglazen kunnen op die manier snel en efficiënt worden geïpoetst.*

[FR]

*Une pièce d'artisanat unique avec un clin d'œil au passé. Voilà ce que la collection fait-main Vitrine représente. La transparence de la structure met en valeur une certaine légèreté. Les petites inégalités et les nuances dans la couleur lui confèrent de l'authenticité. Les ampoules sont facilement remplaçables, en ôtant les broches latérales, près des fixations murales. Les vitres peuvent ainsi être nettoyées rapidement et efficacement.*

[EN]

*A unique piece of craftsmanship with a nod to the past. That is what the traditionally made Vitrine collection is all about. The luminaire's transparent structure radiates a certain light airy look. The tiny inconsistencies and different colour hues provide authenticity. In the wall fittings you can easily replace a lamp by pulling out the side pins. The luminaire's glass panels can also be cleaned in the same quick and easy way.*

[DE]

*Ein Stück Handwerk mit einem Hinweis auf früher. Das ist es, was die handwerklich hergestellte Vitrine-Kollektion symbolisiert. Dank der transparenten Konstruktion strahlen die Vitrinen eine gewisse Leichtigkeit aus. Die kleinen Ungleichheiten und Farbschattierungen sorgen für Authentizität. Bei den Wandarmaturen können Sie die Lampe einfach wechseln, indem Sie die seitlichen Stifte herausziehen. Auch die Vitrinengläser können so schnell und wirksam geputzt werden.*

### Vitrine custom made / sandblasted glass

[NL]

Dankzij onze artisanale manier van produceren is maatwerk geen probleem. Stuur ons uw tekeningen en ideeën, en wij berekenen de prijs voor u. (binnen de technische mogelijkheden). Glas gemakkelijk te vervangen door opaal of gezandstraald glas, prijs op aanvraag.

[FR]

Nous proposons également du travail sur mesure. Nous vous invitons à nous envoyer vos dessins et idées et nous vous enverrons un devis, en fonction de la faisabilité technique. Le verre peut être facilement remplacé par de l'opale ou du verre sablé, prix sur demande.

[EN]

Thanks to our artisan way of production, custom made items are no problem. Send us your drawings and ideas so we can calculate the price for you. (if technically possible). Easy to change to opal or sandblasted glass, price on demand.

[DE]

Dank unserer kunstgewerblichen Herstellungsweise ist Maßarbeit für uns kein Problem. Schicken Sie uns bitte Ihre Zeichnungen und Ideen, und wir berechnen den Preis für Sie (innerhalb der technischen Möglichkeiten).
