

LumiShade™

The world's most admired
window coverings —————

Luxaflex®

Beauty is in the details

Luxaflex® has been adding style and sophistication to New Zealand windows since the 1950s.

Our design heritage is founded on innovation for today and tomorrow while taking care to celebrate the beauty in the details. To us, form and function are synonymous. Consistently pushing the boundaries, we are proud to be the market-leaders in daylight regulation and solar heat control solutions.

LumiShade™

A contemporary take on a classic window covering, Luxaflex® LumiShade™ offers the perfect balance between versatility and elegance. Featuring the premium Luxaflex® EDGE Vertical Track system and soft LumiShade™ fabric, the Luxaflex® LumiShade™ collection provides the perfect balance of style, durability and child safety features to complement any home interior style and living needs.

A Stylish Statement

Take advantage of beautiful light control with Luxaflex® LumiShade™. The individually curved fabric vanes feature an alternating light filtering and room-darkening fabric panel. When opened, enjoy daytime privacy with a soft view.

Functional Design

For seamless indoor-outdoor living, conveniently walk through the individual fabric vanes whether they are opened or closed. Free from noisy connecting chains and bottom weights, Luxaflex® LumiShade™ operates quietly and softly settles back into position.

Flexible Light Control

Easily adjust the level of privacy and light to suit your requirements by rotating the fabric vanes to angle the amount of light entering the room. For room darkening, close the shades completely.

Wide Application

Luxaflex® LumiShade™ is perfect for large windows & sliding door applications as they can neatly stack to the left, right or split stack for an unobstructed view or complete access to the doors.

Fabric Benefits

Made from 100% polyester, LumiShade™ fabric features durable properties such as fade resistance, Ultra Violet (UV) protection to help preserve the fabric and home furnishings from fading, as well as dust resistant properties for easy maintenance.

Child Safety

Designed with child safety in mind, Luxaflex® LumiShade™ fabric has no connecting bottom chains or weights, providing a safer home environment for children and pets.

Stack Options

Left or right stack

Split stack

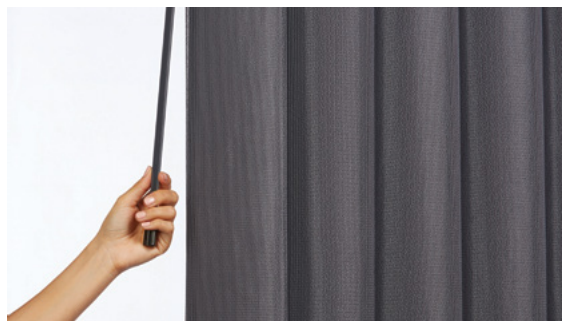

Operating Systems

LumiShades™ feature the EDGE Vertical hardware system and operating options for ultimate performance, durability and smooth control. Available with two options: Chain and Cord or Traversing Wand.

Chain & Cord

Featuring a heavy-duty chain and cord (available in 4 colours white, ivory, grey & black), the beaded chain allows you to rotate the fabric vanes to the desired position, while the cord can be used to stack the shade.

Traversing Wand

For a cordless and enhanced child safe solution, opt for the Traversing Wand operation (available in 4 colours: white, anodised, gunmetal and black). Using just one hand, simply rotate the fabric blades and draw the vanes across.
